

SIMS **Pro Script** Teleprompter Automation

About ProScript

SIMS ProScript is a lightweight, automated teleprompter solution that streamlines script playback without manual intervention - ideal for managing upcoming scripts with ease. Think of it as a lite version of an NRCS, tailored for seamless script automation.

At SIMS, we pay attention to every single detail and ensure the complete satisfaction of our clients. Hence SIMS ProScript comes with a power packed Teleprompter Automation solution that offers a simple, convenient and yet a self explanatory dynamic user interface that can be easily operated even by a rookie without any prior industry experience. ProScript works on a dedicated protocol so that the news updates are synchronized instantly without even a second of delay. With an integrated workbench and story explorer with advanced indexing, Pro Script makes media and story searching quite an easy task for the user.

Extensive Compatibility

Works with MOS

ProScript is Compatible with any Windows-based teleprompter, it also supports the MOS protocol for integration with third-party MOS-enabled applications. And that is what makes SIMS Pro Script stand out from the rest of it's kind.

Intuitive User Interface

User friendly design

SIMS ProScript software features a highly intuitive user interface, allowing users to navigate and operate the application with ease. This seamless experience enhances efficiency and boosts overall productivity.

Why ProScript?

Smart Dashboard

Wide varieties of statistics and reports that ranges from user performance to story ratings that can be easily exported to any supporting file formats.

Elementary Workbench

A hassle free workbench from where you can create and manage your stories with ease.

Dynamic Run Downs

Creating and sorting run orders will never be a complicated task anymore! Pro Script offers drag and drop feature that will allow you to manage run order with utmost easiness and reliability.

Quick Story Explorer

Pro Script is equipped with a built-in story explorer helps you to search and find your required stories ranging to any date within no time.

Self Sync Teleprompter

Published run downs from Pro Script are sent instantly to the teleprompter app which also self synchronizes any run down modifications in real time.

Regional Languages

Pro Script comes with Unicode supported scripting interface where you can type-in or copy paste your stories in any regional language you desire.
